

Ivan's Portable Jons Expands

In the beginning, Ivan's was formed basically to do septic work. By adding additional services for cleaning Grease traps, Sand traps and portable toilets, it has evolved into Ivan's Portable Jons, and Ivan's Pumping Services. In fact, "Nobody Pumps Like Ivan's," has become a well-known motto in the business world that uses their services.

Owner and operator, young and lovely Vanessa Salas was trained by her Dad. He started the business and then felt a strong calling to serve God as a full time pastor. Teaching his daughter all the facts she needed to know, he was a fabulous mentor. He turned things over to her when she was only 20 years old. She took over the reins and admirably raised the service to an even higher level, and states, "I walk by God's will. I feel He has blessed us. Dad gave up his business to become a full-time pastor and the business was rewarded by continued growth."

In 2004, Vanessa graduated and started working as an employee doing anything that involved accounting and internal affairs. In 2005, he started teaching her everything—where to buy equipment and introducing her to the people she needed to know. In 2006, he was still running the business and continuing training Vanessa for two years. She was still under his wing. In 2007, Dad left the business to her and became a full time pastor. Vanessa began networking, knocking on doors, revamping things business-wise and still continued her education on running things. She joined both El Paso Chambers of Commerce and was still interested in community awareness and involvement. Crediting her dear friend Carmen Kennon, with helping her through the learning period, in 2009, the business boomed as Ivan's gained contracts to begin doing business with the U.S. government. In 2011, Ivan's started a Fencing company, which is Ivan's Fencing. In 2014, a new corporation was added, Ivan's Traffic Control. Employees are valued and rewarded for their loyalty and service to the company.

Now, in year 2015, Vanessa moves to their third expansion covering several acres, and a huge building, elegant and beautiful, at 1010 Horizon Blvd. Starting Ivan's out of their home, their second location was at 290 N. Nevarez. They proudly continue to serve their clients with the best in portable jons and pumping services. Dealing directly with customers with no middle person involved to slow the flow of information, calls are handled directly and promptly. Any problems are immediately addressed and the company strictly adheres to all health and environmental rules and regulations. Portable toilets are available in regular or handicapped units, units with sinks available, commercial or residential, parties and outdoor events, construction areas, home parties
